		application San Diego Gas & Electric Company for
		approval of a PX credit and related computations.

- A99-08-023 Application of Pacific Gas and Electric Company in the 1999 Revenue Adjustment Proceeding
- A99-08-022 Southern California Edison Company, to consolidate authorized rates and revenue requirements; verify residual competition transition charge revenues; review the disposition of balancing and memorandum accounts; review generation cost jurisdictional cost allocation; review the reasonableness of the administration of the low emission vehicle program; review the administration of special contracts; and present a proposal for the inclusion of long run marginal costs in the Power Exchange energy credit.

Summary: LATE FILED. AUGMENTATION REQUIRED. On October 2, 2000, Rick Counihan of GreenMountain.com, a member of the Alliance for Retail Markets (ARM), participated in an all-party meeting with Cmmr. Wood, at the offices of the Public Utilities Commission. Among other participants, also present were: Mona Petrochko of Enron and Peter Bray of The New Power Company, members of, and Alan Comnes of MRW & Associates, advisor to, ARM. Mona Petrochko urged the Commission to adopt the Neeper revised alternate proposed decision (RAPD), with modifications, presented in ARM's comments. Petrochko said that the RAPD is consistent with the direction given by the Commission in the 1998 rate adjustment proceeding decision. Petrochko also indicated that the energy equivalent corollary to the Power Exchange Credit for the natural gas business, brokerage fee, would range between 26 and 38 cents per MWh. Petrochko stated that the RAPD falls within that comparable range. Comnes provided rebuttal to the criticisms of ARM's study on technical matters. Bray stated that The New Power Company is anxiously watching the Commission's decision as an important factor as to whether the company will enter the California market.
